The *online* Ascent Virtual Fellowship 2021

GREAT LEADERS YEARN FOR GROWTH: WE PROVIDE RESEARCH-BASED SOLUTIONS

Ascent Leadership Networks has created some of the most powerful leadership development programs in the world. Not only do our participants use words like “transformational” and “amazing value,” we track their progress towards their individual strategic development goal. From our first program, ALL participants made significant progress, as opposed to the 25% average in classic “training.” We deliver both in-person and online, optimizing our approach to make the best use of both.

The Ascent Virtual Fellowship 2020 will be a curated group of senior executives who want to **learn and grow in ways that matter.**

It will tailor the growth of each individual participant based on a deep assessment, which allows us to target not only the core leadership capabilities of top executive leaders, but the level of each required by a given person to achieve their vision
